## Survey Pre-Work:

### TEKS Certification 2023–24 Form

In accordance with [Texas Education Code §31.004](#), local education agencies (LEAs) are required to certify annually to the State Board of Education (SBOE) and the commissioner that students have access to instructional materials covering all Texas Essential Knowledge and Skills (TEKS) for all required subjects, except physical education.

Additionally, in accordance with Texas Administrative Code [19 TAC §66.105](#), LEAs are required to certify that they protect against access to obscene or harmful content in compliance with the requirements for certification under the Children's Internet Protection Act, 47 USC §254(h)(5)(B) and (C). The TEKS Certification 2023–24 Survey includes a section to allow LEAs to certify they meet this requirement.

In response to feedback from last year's process, the agency refined the TEKS Certification Process and will utilize the following tools:

#### **TEKS Certification 2023-24 Form:**

Printable, hard copy of the survey to be completed offline and presented to the board of trustees or governing body for ratification and signatures.

#### **TEKS Certification 2023-24 Survey:**

Web-based application where LEAs will submit their responses, collected on the TEKS Certification 2023-24 Form, and where LEAs will upload the signature page of the Form.

This year's TEKS Certification Process requires:

- The completion of the TEKS Certification 2023-24 Form,
- Ratification by the LEA's board of trustees or governing body in an open, public-noticed meeting; and
- Submission of the TEKS Certification 2023-24 Survey and upload of the signature page of the ratified TEKS Certification 2023-24 Form.

TEA recommends that LEAs complete these steps by **May 1, 2023**. The TEKS Certification 2023-24 Survey can be accessed beginning on March 20, 2023, on the [Instructional Materials webpage](#).

The state online instructional materials ordering system, EMAT, will close for annual maintenance on March 31, 2023, and is scheduled to reopen on May 15, 2023. **Completion of the TEKS Certification Process is required to regain access to allotment funds when EMAT reopens in May of 2023.**

TEKS Certification 2023–24 Survey submissions received after May 15, 2023, will typically be processed within five business days, then access to EMAT provided.

## Instructions to Complete the TEKS Certification Process for 2023-24

1. **Review the TEKS Certification 2023-24 Form.**
2. **Gather information:** The form may require consultation with content area leads or other LEA staff.
3. **Complete TEKS Certification 2023-24 Form:** Complete the TEKS Certification 2023–24 Form by hand or digitally.
4. **Obtain needed signatures:** Ratify the **TEKS Certification 2023-24 Form** by the LEA's board of trustees or governing body in an upcoming, open board meeting.
5. **Submit TEKS Certification 2023-24 Survey:** Complete the online TEKS Certification 2023–24 Survey by answering the questions. Inside the survey you will upload the signature page of the signed Allotment and TEKS

Certification 2023–24 Form from Step 4. The survey will be open for submissions beginning Monday, March 20, 2023, and will be located on the [Instructional Materials website](#).

### TEKS Certification 2023–24 Form

In accordance with [Texas Education Code §31.004](#), local education agencies (LEAs) are required to certify annually to the State Board of Education (SBOE) and the commissioner that students have access to instructional materials covering all Texas Essential Knowledge and Skills (TEKS) for all required subjects, except physical education.

Additionally, in accordance with Texas Administrative Code [19 TAC §66.105](#), LEAs are required to certify that they protect against access to obscene or harmful content in compliance with the requirements for certification under the Children's Internet Protection Act, 47 USC §254(h)(5)(B) and (C). The TEKS Certification 2023–24 Survey includes a section to allow LEAs to certify they meet this requirement.

In response to feedback from last year's process, the agency refined the TEKS Certification Process and will utilize the following tools:

#### **TEKS Certification 2023-24 Form:**

Printable, hard copy of the survey to be completed offline and presented to the board of trustees or governing body for ratification and signatures.

#### **TEKS Certification 2023-24 Survey:**

Web-based application where LEAs will submit their responses, collected on the TEKS Certification 2023-24 Form, and where LEAs will upload the signature page of the Form.

This year's TEKS Certification Process requires:

- The completion of the TEKS Certification 2023-24 Form,
- Ratification by the LEA's board of trustees or governing body in an open, public-noticed meeting; and
- Submission of the TEKS Certification 2023-24 Survey and upload of the signature page of the ratified TEKS Certification 2023-24 Form.

TEA recommends that LEAs complete these steps by **May 1, 2023**. The TEKS Certification 2023-24 Survey can be accessed beginning on March 20, 2023, on the [Instructional Materials webpage](#).

The state online instructional materials ordering system, EMAT, will close for annual maintenance on March 31, 2023, and is scheduled to reopen on May 15, 2023. **Completion of the TEKS Certification Process is required to regain access to allotment funds when EMAT reopens in May of 2023.**

TEKS Certification 2023–24 Survey submissions received after May 15, 2023, will typically be processed within five business days, then access to EMAT provided.

## Instructions to Complete the TEKS Certification Process for 2023-24

# ResponsiveEd

## Organizational Platform and Belief in Creating a Culture of Achievement

The ultimate objective of any educational enterprise is to improve student achievement, thus enabling individuals to make positive contributions to our democracy, economy, and communities, and to live their own American dreams. Improving student achievement is a continuous effort. It often requires meaningful and innovative change in the way educators do their work.

## Organizational Philosophy on Strategic Planning and Continuous Improvement

A strategic plan acknowledges that policy, management, and actions must work together to achieve improvement objectives. Identifying meaningful and innovative efforts requires input from various stakeholders. A strategic plan outlines the path from current state to desired state, employing actions based on input filtered through the lens of sound educational decision making.

## Executive Summary

This plan focuses on performance. It states in unambiguous language the measurable goals and objectives ResponsiveEd intends to achieve.

The strategic plan acknowledges the organization's current state while taking into account the ongoing efforts outlined in this 5 year initiative. Multiple data sources are used to determine specific target areas for improvement. Various stakeholders participate in a variety of ways to provide comment, give input, and pose questions related to the data. The dialogue helps to ensure that (i) concerns are clearly identified, (ii) scope of issues are understood, and (iii) input is valued. The result is that strategic planning initiatives are informed by customer insights and needs. This process allows the organization to challenge pre-existing beliefs and provides opportunities for innovative thinking.

Achieving excellence requires clarity and consistency in communication with employees and stakeholders. An initial list of goals and objectives was developed and further refined as the strategic plan process continued. During this process goals and objectives for the future have been and continue to be developed. This plan represents year four of a 5-year plan. The initiatives identified in 2018-19 SY remain intact and no substantive adjustments were deemed appropriate for the 2021-22 SY. Additional actions were determined to be necessary due to the nature of a continuous improvement model.

Responsive Education Solutions has created a fully integrated, mutually-reinforcing system in which a high-quality, personalized education is delivered to every student. Partners in this system maximize student results by working together cohesively and seamlessly to provide excellence in services and products.

The strategic plan identifies system-wide goals designed to effectively improve ResponsiveEd's culture. Administrator performance will be evaluated and recognized based on this plan. A system has been developed to track action steps related to these strategic objectives and to report and celebrate progress. The success of this plan depends largely on the teachers – those dedicated employees who work most directly with our students – and our ability to support and growth their skills.

ResponsiveEd believes that a process of long-term strategic planning leads directly to the achievement of short-term operational excellence. It also encourages administrators, principals and school staff to be innovative as they progress toward full achievement of goals and objectives. More importantly, clear strategy provides clarity of purpose.

Respectfully Submitted,

The Executive Staff

# 10. Updates to Policies

## **2023-2024 ResponsiveEd Updated Meal Charge Policy**

**The goal of ResponsiveEd is to provide students with healthy meals each day.**

The purpose of this policy is to insure compliance with federal reporting requirements for the USDA Child Nutrition Program, and to provide oversight and accountability for the collection of outstanding student meal balances as unpaid charges can place a large financial burden on our Child Nutrition Department and the District.

### **Policy:**

We strongly discourage meal charges, but we understand that an occasional emergency makes it necessary. If a student's account goes negative in balance, students are allowed to charge up to 3 reimbursable breakfasts and 3 reimbursable lunches.. After the charging limit has been reached, a courtesy meal will be offered and charged to the student.

Any negative balance on the student(s) cafeteria account is the responsibility of the parent/guardian. If a student's meal account has a negative balance, parents/guardians will receive regular email notifications. Parents/guardians are able to set up further notifications and monitor balances in their Skyward Family Access account. If parents or guardians need assistance setting up their child's meal account, they can contact their student's school.

If a student's account is without money on a consistent basis, the administration will investigate the situation to determine if there is a financial hardship. Should a hardship exist, parents and families will be encouraged to apply for free or reduced-price meals for their child throughout the school year.

A La Carte (extras) such as snacks, beverages, second meals are available for purchase only. Students are not allowed to charge A La Carte items. Students are encouraged to pre-load money into their lunch accounts for convenience. Funds are required to "charge" these items to the student lunch account.

### **Food Service Applications:**

Applications are to be completed electronically in Skyward Family Access. Please submit one application per household. Applications received electronically are processed more quickly.

### **Refunds:**

Withdrawn, and graduating students; a written request for a refund of any funds remaining in their account must be submitted to their student's school. An e-mail request is also acceptable. Students who are graduating at the end of the year are also given the option to transfer remaining funds to a sibling's account, or donate the remaining funds to the campus with a written request that they be set aside for a student with a delinquent account due to financial need.
